#### ***Residential Life & Student Affairs***

These staff members and their administrative staff are being recognized for their continued guidance and support (emotional, academic, and professional) to students throughout the academic year and beyond now that the University has some year-round housing. These folks are on call 24/7, whether it's required or not and especially during the academic year, having to deal with the many issues and emergencies that arise on a college campus that has over 1,700 residential students and a commuter population. They come to work every day to do their jobs for our students and students appreciate them; some students even stop into various Student Affairs and Residential Life offices just to say hi and talk about their day or week, or they just need someone to talk to regarding school and/or personal problems they may be having or guidance about their future plans. The staff in these two departments do so much for our students that the whole campus may not see or know about, and for that, a BIG THANK YOU for being there for our student's day and night.

### **Tony Santos, Jose Texidor, Kelly Cooley, & Luis Gonzalez**

#### ***Environmental & Dining Services***

We wanted to reach out and extend a special thank you to the folks who set up the Scanlon Banquet Hall and Loughman Livingroom for us on Mon 5/22 and Tues 5/23. The EMS set up request that was made on our behalf was a little vague and when we arrived it was set up as requested in EMS. However we quickly realized that we needed additional tables and chairs for the event and we notified facilities manager, Tony Santos who helped maintainers, Jose Texidor and Luis Gonzales set up additional tables in chairs for us (there may have been one or two additional people helping, but we were in panic mode so may have missed somebody). Their promptness, professionalism and patience were sincerely appreciated. Kelly Cooley from catering scrambled to find linens for the tables to make everything beautiful in time for when folks arrived. I'm happy to report that the event was successful thanks in big part to the efforts of facilities and catering.
